Document Body

Shell Oil has agreed to comply and therefore SolanoCountywill consider the seismic report as a peer review to the original permit submission.

Normally after everything is submitted (i.e. the permit application and the seismic report), SolanoCountydevelops a Use Permit.

You should contact Mike Profant for more info.

Victor,
Have you incorporated these recommendations into your use permit? I was also wondering if I would be able to see a copy of your use permit to see exactly what it is that you will be requiring of Shell, so we can avoid redundancy or conflict. I am still drafting our UIC permit as we speak. However, when our draft permit is ready to be sent to Shell for review, I am also happy to share it with you for your comments as well.

Adam

FYI.

We had the meeting. The meeting went well.

Shell appears amenable to implementing our recommendations.

The only deviation to our recommendations is that qualified research PhDs will be conducting the study....rather than a licensed geologist or a PE. This is fine with me.

Victor--

Thank you for sending the attachment. Unfortunately I will not be able to attend the meeting today. However, I am very interested to hear how your conversation goes today and whether Shell appears amenable to implementing your recommendations or whether they are hesitant. I look forward to being in touch soon.

Adam

The meeting is at 1:00 PM to around 2:30 PM tomorrow.

We will be discussing the attached recommendations.

Yes, I don't see a problem with that. We are supposed to be coordinating with EPA.

It is the right number. I left him a message. Thanks.

Is it OK to cc a copy of Misty and my recommendations to EPA for his awareness?

Adam Freedman (415) 972-3845. The last digit looks like a five on the sign-in sheet, but it could be a different number. Let me know if this number doesn't work.

Yes, the meeting is still on. Misty indicated to me that she would attend. I don't believe the EPA was going to attend this particular meeting.

Michael

Is the meeting still on?

Will Misty attend?

Will the US EPA attend?
